# GLADIOLUS

If you are not familiar with the varieties listed and are puzzled as to what to order and will state the colors preferred, collections will be made up for you of blooming size bulbs for say \$1.00, \$2.00, \$3.00, or whatever amount you wish to spend. These bulbs will be labeled—not mixed (unless so specified), and personal care will be given to their selection.

It sometimes happens that we are out of the size you order, but have other sizes in the same variety. Please state if you wish another size substituted.

REFERENCE: We have never asked a bank for references. We do business with the People's Building & Loan, The Commercial, National and Farmers' Banks, of Ashtabula.

We want to call your attention to the low prices at which we are offering bulbs this season. Bulblets listed in the fourth column are the corns that cling to the parent bulbs. Some of the common garden peas or larger. The half pint quart from 1000 up. Many of these will be 1/2 to 3/4 inch at the end of the season.

Our stock is placed in tight containers with Napthalene Flakes for a period of six weeks. Our field was entirely free of any thrip during the season of 1938. If you wish to soak the bulbs use Bichloride of Mercury (1 oz. to seven gallons of water, in wood container).

Bulbs are listed at the 100 rate. Twenty-five of one variety at the 100 rate. 1000 at nine times the 100 rate.

We especially want to direct your attention to Picardy, the greatest shrimp pink ever produced. (By Palmer). No collection of bulbs should be without it. We have a wonderful stock of this variety. Our mixed bulbs made up of "run of mine", which means all we raise, are \$1.25 per 100 or \$8.00 per 1000. Nothing under 500 at the 1000 price.

TERMS: Cash with order. All stock offered subject to prior sale. Discounts: 5% cash discount on orders of \$10.00 and over; 10% on orders of \$20.00 and over. State how orders are to be shipped. 3% tax on all Ohio orders.

# Gladiolus Price List

	Large	Per 100 Medium	Small	Per ½ Pt. Bulblets
